

Name: _____

Date: _____

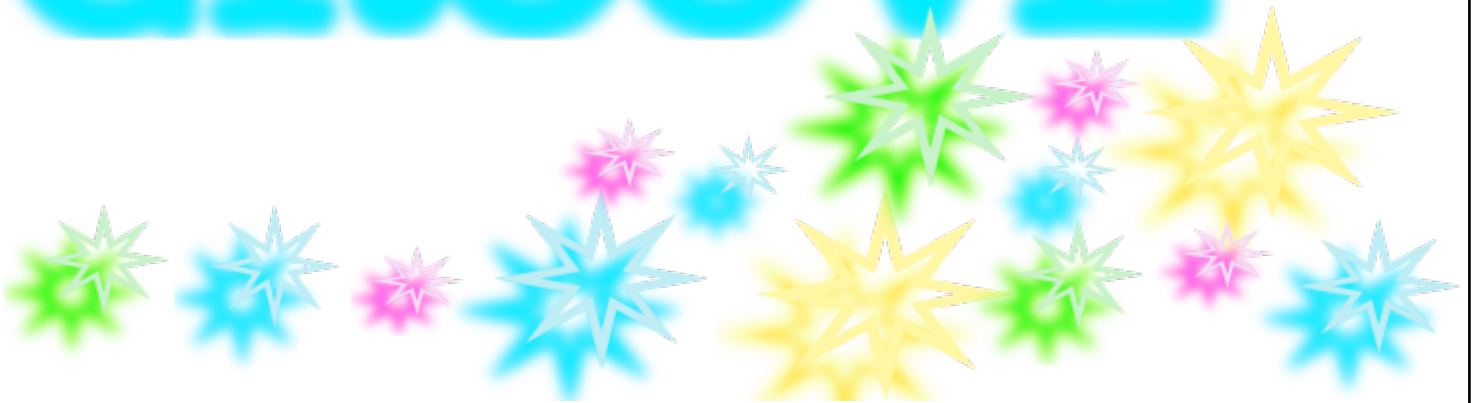

I can combine actions to create computer programs.

LessonID: 157

The world is going dance crazy and I want you to design, test and make a brand new dancing computer program called 'Time to Groove!' This game will be used to show children a range of cool and crazy dance moves, step by step, which they can then learn themselves.

TIME TO GROOVE

I would start by exploring some of the sprites available - you may find some of them already have 'dance move' costumes available.
