I can find smaller bugs in programs when debugging

LessonID: 175

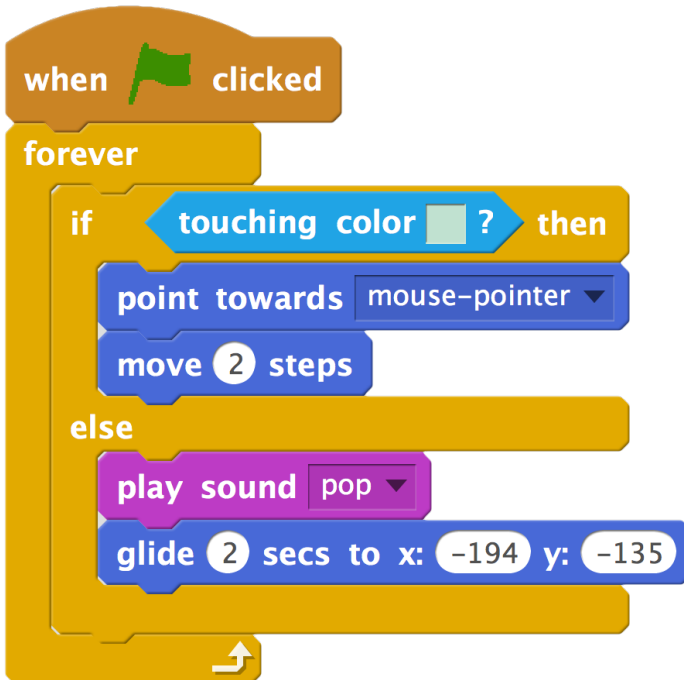

Take care to open the Scratch project at this website:
scratch.mit.edu/projects/22594301/

Click 'See inside' to open the project.

There is a **very slight** bug in this program. Can you find it?

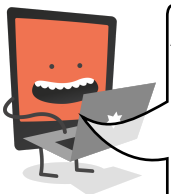

Draw an arrow to show where the bug is, then explain why this is a bug.
Finally, describe what you did to fix it.

The bug is

This is a bug because

To fix it I

As a hint, it may help you
to consider what is
happening here. Is it
happening in the right
order?
