

Name: _____

Date: _____

I can use a column method to subtract a range of numbers.

LessonID: 011

Use the column method to complete these calculations.
Remember to line up your digits carefully.

(eg) $1006 - 237$

		9	9	
	1	0	0	6
-		2	3	7
<hr/>				
		7	6	9

(eg) $40.5 - 17.8$

	3	9	
	4	0	.5
-	1	7	.8
<hr/>			
	2	2	.7

(1) $906 - 360$

(6) $708.52 - 362.46$

(2) $799.64 - 185.4$

(7) $957.42 - 880.42$

(3) $941.3 - 363.58$

(8) $1080.35 - 448$

(4) $886 - 150.4$

(9) $1038.45 - 577.42$

(5) $823.3 - 455$

(10) $1168.09 - 498.67$

Challenge: Which two numbers have a difference of 12.5?
Hint - Do you need to test every pair of numbers?

6.2

16.3

5.3
